Anahat Deshmukh

Co-founder, TheAuralCo. | CMO at Avartan Concerts | Musician | AI ML Engineering
Pune, Maharashtra, India

Summary

I'm a second year engineering student, focusing on Artificial Intelligence and Machine Learning. I'm interested in tech stuff like Computer Science, Web 4.0, Mixed Reality, Finance, Global Current Affairs, and Business Intelligence. My goal is to use what I learn to create things that can help people.

Outside of tech, Talking about music yes, music is a big part of who I am, and I have had the honor of being recognized for my vocal abilities through numerous first place wins in state and national level Indian Classical and Semi-Classical music singing competitions.

Right now, I'm working on AuralScenes, a media agency that combines tech and art. I want it to stand out in the industry and connect with different people.

I'm always eager to learn and grow. I believe what I'm studying can make a positive impact, and I'm excited to see where it takes me.
